## Pickleball Classes at Pecos Park resumes in September:

We are adding a few new class structures, including one day clinics which will include play evaluation, drills and round robin matches.

We are also introducing beginner league development play to help you get more acclimated to playing different people/teams and prepare you for league play.

Both class structures are intended to give you more insight into the game, a deep understanding of the rules and focus on team playing through doubles and strategy.

Click on the links below for more info. Sign up starts online or at the community center August 8
